Coastal Engineering 31 (1997) 345-346

Contents Volume 31, 1997

<i>Editorial</i>	1
<i>Research Papers</i>	
A new kind of nonlinear mild-slope equation for combined refraction-diffraction of multifrequency waves Y. Tang and Y. Ouellet	3
Free and forced oscillations of a gate system as proposed for the protection of Venice Lagoon: the discrete and dissipative model G. Vittori	37
Short-term shoreline changes due to cross-shore structures: a one-line numerical model I.O. Leont'ev	59
Wave height, setup and currents around a detached breakwater submitted to regular or random wave forcing M. Mory and L. Hamm	77
Intercomparison of coastal area morphodynamic models J. Nicholson, I. Brokø, J.A. Roelvink, D. Price, J.M. Tanguy and L. Moreno	97
Plunging jet characteristics of plunging breakers H. Chanson and L. Jaw-Fang	125
Internal characteristics and numerical analysis of plunging breaker on a slope K. Takikawa, F. Yamada and K. Matsumoto	143
Comparisons between sediment transport models and observations made in wave and current flows above plane beds A.G. Davies, J.S. Ribberink, A. Tempeville and J.A. Zyberman	163
Intercomparison of wave-driven current models P. Péchon, F. Rivero, H. Johnson, T. Chesher, B. O'Connor, J.-M. Tanguy, T. Karambas, M. Mory and L. Hamm	199
Improvement of the full-range equation for bottom friction under three-dimensional wave-current combined motion A. Sana and H. Tanaka	217
A phase-resolving cross shore sediment transport model for beach profile evolution K.A. Rakha, R. Deigaard and I. Brøker	231
Statistical properties of multiple bars Z. Pruszak, G. Różyński and R.B. Zeidler	263
Harmonic generation past a submerged porous step I.J. Losada, M.D. Patterson and M.A. Losada	281
Estimating return period wave heights and wind speeds using a seasonal point process model I.D. Morton, J. Bowers and G. Mould	305
Long-term distribution of seabed shear stresses beneath random waves D. Myrhaug and E.H. Hansen	327

Erratum

A laboratory study of longshore currents over barred and non-barred beaches [Coastal Eng., 30 (1997) 1-22]
A.J.H.M. Reniers and J.A. Battjes 339

Announcement 341

Book Review

Offshore Breakwaters and Shore Evolution Control
A. Tørum 343
